

Human Touch in Digital World

*Be the CEO of your reactions,
decisions & relationship system
dynamics!*

WHY NOW?

We see it daily: misaligned teams, conflicts that slow decisions, and frustration when technology feels “cold.” Balancing the smart use of digital tools with the power of human connection is no longer optional - it’s essential for you, your team and your organization’s well-being and growth. Research and real-world evidence show that **mastering ‘human skills’ - emotional, social and systemic intelligence** - is the real game-changer. **Learning and applying these skills save time, energy and money!**

BENEFITS & APPROACH

In this Workshop, **leaders** and **teams** learn to:

- ✓ **Strengthen Emotional Intelligence** - awareness of their own emotions, reactions and decisions.
- ✓ **Build Social Intelligence** - reading others and fostering connection to collaborate better.
- ✓ **Apply Systemic Intelligence** - understanding what the whole team or system feels and needs to approach the situations holistically and find win-win solutions to complex challenges.

Through real cases and practical coaching tools - like my original **CEO Tool (Check-Emotions-Outcome)** and the **Third Entity (ORSC™) Lens** participants gain concrete strategies to **navigate complexity** and **lead with clarity, purpose and compassion**.

FORMAT

- **2-4 hours interactive workshop** in-person or on-line live
- **90 minutes discovery session** to tailor the content to your system context and needs.
- **Follow-up and accountability partners approach** to sustain change.
- **Optional 1:1 coaching** for leaders and teams to support integration of the insights and actions.
- Available in **English, Polish, Spanish and Italian**.
